

# What is social capital?

The connections, networks, or **relationships** among people, and **their value** that can be accessed to help people succeed.

---

## Social capital **produces:** Types of social capital:

- Information
- Emotional and financial support
- Other resources
- Bonding - with people **like** me
- Bridging - with people **different** from me
- Linking - with institutions or people in **positions of power**

People with high social capital **find better jobs** and are happier and healthier.

---

## Examples of social capital building strategies:

Faith-based networks - relationship-building

Mentoring - pairs or groups from different backgrounds

Peer supports - peer mentors, peer navigators, peer support groups

Family strengthening - Healthy relationships, fatherhood, parenting, family reunification
