{INTRODUCTION}

Hi. My name is [INTERVIEWER NAME] and I'm doing a study for the Missouri Department of Social Services. I am not calling to sell you anything – I am contacting you about a study of Missouri's welfare programs.

We are conducting a study with people who left Missouri's AFDC program two years ago to see what has happened in their lives the past few years. You have been randomly selected to participate in this special study and should have received a letter in the last few weeks from the Missouri Department of Social Services and Macro International that discussed the study and mentioned that someone would be calling.

Since your participation is very important, we are offering \$20 to you for completing the study with me at this time. By participation, we mean that you agree to answer questions over the telephone.

All of the information we discuss in the study will be kept strictly confidential and your responses will be analyzed and reported as a part of a larger group. That means that they will never be distributed in such a way that your answers could be traced back to you.

If you choose not to participate, you will not be penalized in any way – but we hope that you will choose to participate! Most people find it interesting and a good way to share their opinions on issues that are important to the State. Also, participating in the study will help the State of Missouri develop better programs and policies to help other people.

[If necessary: The incentive payment is a postal money order that you may cash, free of charge, at any Post Office.]

[If asked: The survey usually takes about 45 minutes to complete.]
