A public use data set for the National Survey of Adoptive Parents is available to researchers. For more information see: <http://www.cdc.gov/nchs/slait/nsap.htm>. In addition, the *Adoption USA* chartbook may be found at <http://aspe.hhs.gov/hsp/09/NSAP/chartbook/>. Printed copies are available from the Child Welfare Information Gateway (www.childwelfare.gov or 800-394-3366).

Acknowledgements

Any large scale research effort is made possible through the efforts of many hands, and the National Survey of Adoptive Parents (NSAP) and the compilation of this Chartbook is no exception. Important to this effort is the interagency collaboration that occurred throughout the development of the questionnaire, the implementation of the survey, and, finally, the publication of the Chartbook.

The NSAP was sponsored by the Office of the Assistant Secretary for Planning and Evaluation (ASPE) and the Children's Bureau within the Administration for Children and Families (ACF). In 2005-06 the Urban Institute developed the questionnaire used in the survey under contract to the Office of the Assistant Secretary for Planning and Evaluation (233-02-0092, task 10). The survey was conducted in 2007-08 by the Centers for Disease Control and Prevention's (CDC) National Center for Health Statistics (NCHS) as a module of the State and Local Area Integrated Telephone Survey (SLAITS). The CDC's National Center for Immunization and Respiratory Diseases graciously permitted the use of the National Immunization Survey sampling frame for this survey. Data collection was conducted by the National Opinion Research Center (NORC) at the University of Chicago under contract to the NCHS.

In 2008-09 this Chartbook was developed by Child Trends under contract to the Office of the Assistant Secretary for Planning and Evaluation (HHSP233200800506G). The Child Trends authors would like to acknowledge the assistance of many individuals in the data analysis and development of the Chartbook. First, we wish to express our thanks to our Federal Project Officers, Laura Radel with the Office of the Assistant Secretary for Planning and Evaluation and Matthew Bramlett with the National Center for Health Statistics, for their invaluable oversight and input throughout the development of this Chartbook. In addition, Dr. Bramlett was the NSAP survey director and provided valuable insights with his extensive statistical expertise. We also wish to thank the expert consultants who reviewed drafts of this Chartbook and helped to identify key themes and suggested ways to clarify the presentation: Richard Barth, Professor and Dean of the University of Maryland School of Social Work; Penelope Maza, former Senior Policy Research Analyst in the U.S. Children's Bureau; and Debbie Riley, Executive Director, The Center for Adoption Support and Education. In addition, Child Trends senior staff member David Murphey reviewed early drafts of the Chartbook and provided valuable insight. Erin Bishop, former research assistant at Child Trends, was an integral part of the team, diligently conducting analytical tasks. The Chartbook was designed by Chris Mazzatenta.

Most importantly, we extend our appreciation to the thousands of parents who were willing to share their stories. Their efforts made this Chartbook a reality.

Adoption USA

A Chartbook Based on the 2007 National Survey of Adoptive Parents

INTRODUCTION	1
The adoption process	1
Interpreting differences among percentages	3
Changes in the adoption landscape	4
All adopted children	5
Children adopted from foster care.....	6
Children adopted domestically from sources other than foster care.....	6
Children adopted from international sources	7
The Chartbook	7
PART 1: THE POPULATION	9
Children’s history, prior relationship with parents.....	11
Race, ethnicity, and gender	13
Other demographic and socio-economic characteristics.....	15
Family structure	17
Neighborhood characteristics	19
Physical health	21
Social and emotional well-being	25
Cognitive development and educational achievement	28
Family and community activities	30
Parenting and parent well-being	32
Adoption satisfaction	35
Parent involvement and advocacy in the adoption community.....	36
Parents’ prior connections to adoption	38
PART 2: THE ADOPTION PROCESS	40
Parents’ motivation to adopt	41
Parents’ satisfaction with their agency or attorney	42
Adoption expenses	43
Adoption openness	45
Post-adoption supports	47
TECHNICAL APPENDIX	50
Data sources.....	50
Identifying adopted children and the type of adoption	51
Data analysis	51
Availability of data	52
ENDNOTES	53

LIST OF FIGURES

Figure 1. Number and percentage distribution of adopted children by adoption type	3
Figure 2. Percentage of adopted children who have ever lived with birth family members, by adoption type	11
Figure 3. Percentage of children adopted from foster care and from other domestic sources who have ever lived with birth family members, by pre-adoptive relationship to parents	11
Figure 4. Percentage distribution of all children and adopted children by race and Hispanic origin	13
Figure 5. Percentage distribution of adopted children by race and Hispanic origin, by adoption type	14
Figure 6. Percentage distribution of adopted children by race and Hispanic origin of their parents, by adoption type	14
Figure 7. Percentage of adopted children who were adopted transracially, by adoption type	14
Figure 8. Percentage distribution of all children and adopted children by child age	15
Figure 9. Percentage of adopted children by socio-economic and demographic characteristics, by adoption type	16
Figure 10. Percentage distribution of adopted children by existence of birth siblings; percentage distribution of adopted children with birth siblings by whether or not parent also adopted child's birth sibling(s)	17
Figure 11. Percentage of adopted children with birth siblings also adopted by parent, by adoption type	18
Figure 12. Percentage of children with married parents, by adoptive status and by adoption type	18
Figure 13. Percentage of adopted children in families with both adopted and biological siblings, by adoption type	18
Figure 14. Percentage of children living in neighborhoods with various characteristics, by adoptive status.....	19
Figure 15. Percentage of children according to their health status, by adoptive status	21
Figure 16. Percentage of adopted children according to their health status, by adoption type	22
Figure 17. Percentage of children according to measures of health context and insurance, by adoptive status	22
Figure 18. Percentage of adopted children according to measures of health context and insurance, by adoption type ..	23
Figure 19. Percentage of children according to measures of social and emotional well-being, by adoptive status.....	26
Figure 20. Percentage of adopted children according to measures of social and emotional well-being, by adoption type	26
Figure 21. Percentage of children ages 6-17 who spend any time reading on an average school day, by adoptive status and by child age.....	28
Figure 22. Percentage of children ages 6-17 who are usually or always engaged in school, by adoptive status and by adoption type	29
Figure 23. Percentage of adopted children ages 5-17 whose parents rated school performance as "excellent" or "very good," by adoption type	29
Figure 24. Percentage of children whose parents read to them and sing or tell stories to them, by adoptive status	30
Figure 25. Percentage of children ages 6-17 who participate in one or more organized activities outside of school, by adoptive status and by adoption type	31
Figure 26. Percentage of adopted children according to parenting and parent-child measures	33
Figure 27. Percentage distribution of all children and all adopted children, by reported satisfaction of parent with spouse/partner relationship quality	34
Figure 28. Percentage of adopted children according to parenting and parent-child measures, by adoption type	34
Figure 29. Percentage of adopted children according to whether their parents would make the same decision to adopt again, by adoption type	35
Figure 30. Percentage distribution of adopted children according to whether parents helped other adoptive families ..	36
Figure 31. Percentage distribution of adopted children according to whether parents recruited other adoptive families	36
Figure 32. Percentage distribution of adopted children according to whether parents helped other adoptive families, by adoption type	37
Figure 33. Percentage distribution of adopted children by parents' prior connection to adoption	38
Figure 34. Percentage distribution of adopted children by parents' prior connection to adoption, by adoption type	38
Figure 35. Percentage of adopted children by parents' reasons for choosing to adopt, by adoption type.....	41
Figure 36. Percentage distribution of adopted children by parents' reported experience with adoption agency or attorney, by adoption type	42
Figure 37. Percentage distribution of adopted children by cost of the adoption, by adoption type.....	44
Figure 38. Percentage of children adopted by non-relatives who have pre-adoption agreements regarding openness and who have had post-adoption contact with birth family members, by adoption type	45
Figure 39. Percentage of adopted children whose parents wanted to receive various post-adoption services (adoption specific) but did not	47
Figure 40. Percentage of adopted children whose parents received various post-adoption services (adoption specific), by adoption type	48

LIST OF FIGURES CONTINUED
