

## **Termination Notice**

Pursuant to section 319 of the Public Health Service (PHS) Act, Secretary Azar determined that, as the result of the consequences of the opioid epidemic, a PHE has existed in the United States since October 26, 2017. The Secretary's determination to declare the PHE was made after consultation with public health officials as necessary. As result of the PHE, the Secretary also determined pursuant to section 319(f) of the PHS Act that circumstances of the PHE necessitate a waiver from the requirements of the Paperwork Reduction Act, 44 U.S.C. § 3501 *et seq.*, effective as of the date of August 3, 2018. The waiver is justified to collect information to support the Department's investigation of and response to the opioid epidemic. This waiver applies to information related to dispensing practices of and barriers to access medication-assisted treatment (MAT) in federally regulated Opioid Treatment Programs (OTPs), which provide MAT for people diagnosed with an opioid-use disorder.

Pursuant to the waiver, the requirements of 44 U.S.C. § 3501 *et seq.* shall not be applicable with respect to voluntary collection of information during the effective time period.

The Paperwork Reduction Act waiver is effective as of August 3, 2018 and is anticipated to remain in effect throughout the time period of the immediate investigation of and response to the emergency declared pursuant to section 319(a) of the PHS Act, and for a reasonable length of time for immediate post response review regarding the public health emergency.

Any initiative subject to this waiver that is ongoing after the termination of the effective period shall be subject to the requirements of the Paperwork Reduction Act within 30 days of expiration of the waiver. The waiver applies to the Substance Abuse and Mental Health Services Administration.

This notice will be updated as needed.
