Please remove the statement "

- Studies supporting a link have been ignored by health authorities."

from the website at

<https://www.cdc.gov/vaccine-safety/about/autism.html>

This is a false statement, as detailed in

<https://pmc.ncbi.nlm.nih.gov/articles/PMC2954080/> and many other sources.

The 1998 paper from Andrew Wakefield has been thoroughly reviewed and debunked, not ignored.

Or state your case on that website, on why you think the debunked studies have been ignored.
