Background

Funding Opportunity Title

NIA AD/ADRD Health Care Systems Research Collaboratory (U54 Clinical Trial Required)

Urgent Need to Improve and Transform Dementia Care

- Initiated by NIH/NIA and awarded in September 2019

- **Goal:** Strengthen the national capacity to implement cost-effective large-scale research studies that engage health care delivery organizations as research partners for people living with dementia (PLWD) and their caregivers (CGs)

- **Vision:** Transform the delivery, quality, and outcomes of care provided to Americans living with dementia and their caregivers by accelerating the testing and adoption of evidence-based interventions within healthcare systems
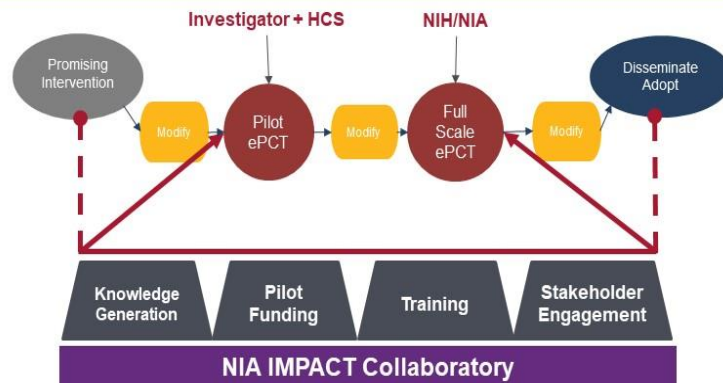

What Will the NIA IMPACT Do?

- Develop and disseminate technical, policy, and best practices
- Enhance research development and investigator capacity:
  - Fund/guide pilot embedded pragmatic clinical trials (ePCTs), support transformation into full-scale ePCTs.
  - Resource for NIA-funded investigators conducting ePCTs in PLWD.
  - Support training through career award, workshops, and on-line modules.
- Engage stakeholders

National Pilot Program to Improve Dementia Care
