Notes: * Marketplace data represent the cumulative number of Individuals Determined Eligible to Enroll in a plan Through the Marketplace who have selected a plan from 10-1-13 to 3-31-14, including Special Enrollment Period-related activity through 4-19-14 (with or without the first premium payment having been received directly by the Marketplace or the issuer), excluding plan selections with unknown data for a given metric.

** Medicaid/CHIP data are state reported and represent the difference between March 2014 enrollment and Pre-ACA Monthly Average Medicaid and CHIP Enrollment (July-Sept 2013). Not all changes in enrollment may be related to the Affordable Care Act. Because these data are state-reported, detailed questions about the Medicaid/CHIP data should be directed to the states. The Medicaid/CHIP data required to calculate the difference between March 2014 enrollment and Pre-ACA Monthly Average Medicaid and CHIP Enrollment (July-Sept 2013) is not available at this time. As of the end of 2012, Connecticut covered approximately 81,000 individuals under an early expansion under the Affordable Care Act, who are not captured in the change in Medicaid/CHIP enrollment figure above because they were already enrolled in the "baseline" period (July-September 2013).
