

**PROFILES OF AFFORDABLE CARE ACT COVERAGE EXPANSION ENROLLMENT  
FOR MEDICAID / CHIP AND THE HEALTH INSURANCE MARKETPLACE  
10-1-2013 to 3-31-2014**

This document contains state-level profiles that summarize key data relating to Affordable Care Act coverage expansion enrollment from the ASPE *Health Insurance Marketplace Summary Enrollment Report For The Initial Annual Open Enrollment Period; For the period: October 1, 2013 - March 31, 2014 (Including Additional Special Enrollment Period Activity through 4-19-14)*, and the CMS *Medicaid & CHIP: March 2014 Monthly Applications, Eligibility Determinations, and Enrollment Report*. These profiles include data for states that are implementing their own Marketplaces (also known as State-Based Marketplaces or SBMs), and states with Marketplaces that are supported by or fully run by the Department of Health and Human Services (including those run in partnership with states, also known as the Federally-facilitated Marketplace or FFM). Data are provided on the number and characteristics of individuals who have selected a Marketplace plan (including those who have paid a premium and those who have not yet paid a premium, regardless of when their coverage began); and the change in Medicaid / CHIP enrollment, representing the difference between March 2014 enrollment and Pre-ACA Monthly Average Medicaid and CHIP Enrollment (July-Sept 2013). For more information, please see the Marketplace Summary Enrollment Report, which can be accessed at [http://aspe.hhs.gov/health/reports/2014/MarketPlaceEnrollment/Apr2014/ib\\_2014Apr\\_enrollment.pdf](http://aspe.hhs.gov/health/reports/2014/MarketPlaceEnrollment/Apr2014/ib_2014Apr_enrollment.pdf), and the March Medicaid/CHIP Enrollment Report, which can be accessed at <http://www.medicaid.gov/AffordableCareAct/Medicaid-Moving-Forward-2014/Downloads/March-2014-Enrollment-Report.pdf>.

<i>Unknown</i>	148,200	N/A

Notes: \* Marketplace data represent the cumulative number of Individuals Determined Eligible to Enroll in a plan Through the Marketplace who have selected a plan from 10-1-13 to 3-31-14, including Special Enrollment Period-related activity through 4-19-14 (with or without the first premium payment having been received directly by the Marketplace or the issuer), excluding plan selections with unknown data for a given metric.

\*\* Medicaid/CHIP data are state reported and represent the difference between March 2014 enrollment and Pre-ACA Monthly Average Medicaid and CHIP Enrollment (July-Sept 2013). Not all changes in enrollment may be related to the Affordable Care Act. Because these data are state-reported, detailed questions about the data should be directed to the states. Approximately 949,821 individuals were covered under early expansion of Medicaid programs under the Affordable Care Act in seven states, program growth which is generally not captured in the change in Medicaid/CHIP enrollment figure above because the beneficiaries were already enrolled in the "baseline" period (July-September 2013).

Notes: \* Marketplace data represent the cumulative number of Individuals Determined Eligible to Enroll in a plan Through the Marketplace who have selected a plan from 10-1-13 to 3-31-14, including Special Enrollment Period-related activity through 4-19-14 (with or without the first premium payment having been received directly by the Marketplace or the issuer), excluding plan selections with unknown data for a given metric. Because of systems obstacles faced by the Massachusetts Marketplace, the plan selection enrollment numbers in this table do not include 160,000 new applicants above 133 percent FPL who are in Temporary Subsidized Coverage; these individuals will be processed for QHP Eligibility Determination and potential coverage retroactive to the current reporting period. There are also 112,192 persons between 133 and 300 percent FPL currently extended Commonwealth Care coverage, who were scheduled to transition to QHP coverage following October 1, 2013, but who have not been processed due to systems problems. Without the systems obstacles faced by the Massachusetts Marketplace, the number of individuals enrolled in a QHP with the Massachusetts Health Connector as of 4/15/14 might be as many as 303,000. The age and metal level breakouts for plan selection enrollment represents the time period 10/1/13 - 3/31/14; demographic breakouts through 4/19/14 were unavailable at the time of publication.

\*\* Medicaid/CHIP data are state reported and represent the difference between March 2014 enrollment and Pre-ACA Monthly Average Medicaid and CHIP Enrollment (July-Sept 2013). Not all changes in enrollment may be related to the Affordable Care Act. Because these data are state-reported, detailed questions about the Medicaid/CHIP data should be directed to the states.

Notes: \* Marketplace data represent the cumulative number of Individuals Determined Eligible to Enroll in a plan Through the Marketplace who have selected a plan from 10-1-13 to 3-31-14, including Special Enrollment Period-related activity through 4-19-14 (with or without the first premium payment having been received directly by the Marketplace or the issuer), excluding plan selections with unknown data for a given metric. Minnesota plan selection totals do not include adults between 133% and 200% of the Federal Poverty Level (FPL) because these individuals are enrolled in the MinnesotaCare program. In addition, children up to 275% FPL are covered through the Medicaid program. Hence, when comparing Minnesota's cumulative data for these indicators with other State-Based Marketplaces, the number of individuals determined eligible for MinnesotaCare and enrolled in MinnesotaCare are worth noting. Because of challenges in aggregating across manual and electronic enrollments, Minnesota does have a consolidated source for reporting subsidies/CSRs at this time. At this time, Minnesota is unable to provide age, gender, and metal level breakouts for manual enrollments. The 'unknown' data referred to in the demographic and metal level tables refer to enrollments that are manually processed.

\*\* Medicaid/CHIP data are state reported and represent the difference between March 2014 enrollment and Pre-ACA Monthly Average Medicaid and CHIP Enrollment (July-Sept 2013). Not all changes in enrollment may be related to the Affordable Care Act. Because these data are state-reported, detailed questions about the Medicaid/CHIP data should be directed to the states. As of the end of 2013, the Minnesota covered approximately 84,000 individuals under an early expansion under the Affordable Care Act, most of whom are not captured in the change in Medicaid/CHIP enrollment figure above because they were already enrolled in the "baseline" period (July-September 2013).

Notes: \* Marketplace data represent the cumulative number of Individuals Determined Eligible to Enroll in a plan Through the Marketplace who have selected a plan from 10-1-13 to 3-31-14, including Special Enrollment Period-related activity through 4-19-14 (with or without the first premium payment having been received directly by the Marketplace or the issuer), excluding plan selections with unknown data for a given metric.

\*\* Medicaid/CHIP data are state reported and represent the difference between March 2014 enrollment and Pre-ACA Monthly Average Medicaid and CHIP Enrollment (July-Sept 2013). Not all changes in enrollment may be related to the Affordable Care Act. Because these data are state-reported, detailed questions about the Medicaid/CHIP data should be directed to the states. The Medicaid/CHIP data required to calculate the difference between March 2014 enrollment and Pre-ACA Monthly Average Medicaid and CHIP Enrollment (July-Sept 2013) is not available at this time.

Notes: \* Marketplace data represent the cumulative number of Individuals Determined Eligible to Enroll in a plan Through the Marketplace who have selected a plan from 10-1-13 to 3-31-14, including Special Enrollment Period-related activity through 4-19-14 (with or without the first premium payment having been received directly by the Marketplace or the issuer), excluding plan selections with unknown data for a given metric.

\*\* Medicaid/CHIP data are state reported and represent the difference between March 2014 enrollment and Pre-ACA Monthly Average Medicaid and CHIP Enrollment (July-Sept 2013). Not all changes in enrollment may be related to the Affordable Care Act. Because these data are state-reported, detailed questions about the Medicaid/CHIP data should be directed to the states.
