¹ Population numbers used for the denominators are Census resident population estimates adjusted to the December date by averaging the July 1 population of the current year with the July 1 population of the following year; see *Current Population Reports*, Series P25-1106 and Resident Population Estimates of the United States by Age and Sex, April 1, 1990 to November 1, 1999, Internet release date December 23, 1999 (Available online at <http://www.census.gov>).

² For the number of persons (65 years of age and older living in poverty) used as the denominator, see *Current Population Reports*, Series P60-207.

³ The pretransfer poverty population used as the denominator is the number of all elderly persons living in elderly-only units whose income (cash income plus social insurance plus Social Security but before taxes and means-tested transfers) falls below the appropriate poverty threshold. See Appendix J, Table 20, *1992 Green Book*; data for subsequent years are unpublished Congressional Budget Office tabulations.

Notes: Numerators for these ratios are from Table A-20. Rates computed by DHHS.
