Executive Summary xi

I. Introduction I-1

Organization of Report I-1
Measuring Welfare Dependence I-3
Measuring Deprivation I-8
Data Sources I-11

II. Indicators of Dependence II-1

Indicator 1. Degree of Dependence II-4
Indicator 2. Dependence Transitions II-12
Indicator 3. Dependence Spell Duration II-14
Indicator 4. Receipt of Means-Tested Assistance and Labor Force Attachment II-16
Indicator 5. Program Spell Duration II-20
Indicator 6. Long-Term Receipt II-22
Indicator 7. Multiple Program Receipt II-24
Indicator 8. Events Associated with the Beginning and Ending of Program Spells II-26
Indicator 9. Rates of Receipt of Means-Tested Assistance II-28
Indicator 10. Rates of Participation in Means-Tested Assistance Programs II-34

III. Predictors and Risk Factors Associated with Welfare Receipt III-1

Economic Security Risk Factors III-4
ECON 1. Poverty Rates III-8
ECON 2. Poverty Spells III-10
ECON 3. Long-Term Poverty III-12
ECON 4. Child Support III-16
ECON 5. Food Insecurity III-18

Employment and Work-Related Risk Factors III-20
WORK 1. Labor Force Attachment III-22
WORK 2. Employment Among the Low-Skilled III-24
WORK 3. Earnings of Low-Skilled Workers III-26
WORK 4. Adult/Child Disability III-28
WORK 5. Adult Alcohol and Substance Abuse III-30
WORK 6. Children’s Health Conditions
WORK 7. Child Care Expenditures III-32
WORK 8. Educational Attainment III-34
WORK 9. High-School Dropout Rates III-36

Non-Marital Birth Risk Factors
BIRTH 1. Births to Unmarried Women III-38
BIRTH 2. Births to Unmarried Teens III-41
BIRTH 3. Unmarried Teen Birth Rates Within Age Groups III-44

Appendices

A. Program Data A-1
   Aid to Families with Dependent Children (AFDC) and Temporary Assistance
   for Needy Families (TANF) A-1
   Food Stamp Program A-22
   Supplemental Security Income (SSI) A-33

B. Additional Non-Marital Birth Data B-1
List of Figures

Chapter I

SUM 1. Recipiency and Dependency Rates: 1987-95

Chapter II

IND 1a. Percentage of Total Income from Means-Tested Assistance Programs: 1995
IND 1b. Percentage of Recipients with More than 50 Percent of Income from AFDC and Food Stamps between 1982 and 1991, by Years of Dependency
IND 1c. Percentage of Total Income from Various Sources, by Poverty Status: 1995
IND 2. Dependency Status in 1995 of Persons Who Received More than 50 Percent of Income from Means-Tested Assistance in 1994, by Race
IND 3. Percentage of AFDC Spells of Individuals in Families with No Labor Force Participants for Individuals Entering Programs During the 1993 SIPP Panel, by Length of Spell
IND 4a. Percentage of Recipients in Families with Labor Force Participants, by Program: 1995
IND 4b. Percentage of AFDC Recipients in Families with Labor Force Participants: Selected Years
IND 5. Percentage of AFDC, Food Stamp, and SSI Spells for Individuals Entering Programs During the 1993 SIPP Panel, by Length of Spell
IND 6. Percentage of AFDC Recipients in 1982, by Years of Receipt: 1982-91
IND 7. Percentage of Population Receiving Assistance from One, Two, or Three Programs (AFDC, Food Stamps, SSI), by Age: 1995
IND 9b. Percentage of the Total Population Receiving Food Stamps, by Age: 1975-98
IND 9c. Percentage of the Total Population Receiving SSI, by Age: 1974-98
IND 10. Participation Rates in the AFDC/TANF, Food Stamp and SSI Programs: Selected Years

Chapter III

ECON 1a. Percentage of Persons in Poverty, by Age: 1959-98
ECON 1b. Percentage of Population Below 50 and 100 Percent of Poverty Level, 1975-98
ECON 2. Percentage of Poverty Spells for Individuals Entering Poverty During the 1993 SIPP Panel, by Length of Spell
ECON 3. Percentage of Children Ages 0 to 5 in 1982 Living in Poverty, by Years in Poverty
ECON 5. Percentage of Households Classified as Food Insecure: 1998
WORK 1. Percentage of Individuals in Families with Labor Force Participants, by Race: 1995
WORK 2. Percentage of All Persons Ages 18 to 65 with No More than a High School Education Who Were Employed: 1969-99
WORK 4. Percentage of the Population Reporting a Disability, by Age: 1994
WORK 5. Percentage of Adults Who Used Cocaine or Marijuana or Abused Alcohol: 1998
WORK 6. Selected Chronic Health Conditions per 1,000 Children Ages 0 – 17: Selected Years
WORK 7. Percentage of Monthly Income Spent on Child Care for Preschoolers by Families with Employed Mothers: 1993
WORK 8. Percentage of Adults Age 25 and Over, by Level of Educational Attainment: 1960-98

WORK 9. Percentage of Students Enrolled in Grades 10 to 12 in the Previous Year Who Were Not Enrolled and Had Not Graduated in the Survey Year, by Race: 1975-97

BIRTH 1. Percentage of Births to Unmarried Women, by Age Group: 1940-98

BIRTH 2. Percentage of All Births to Unmarried Teens Ages 15 - 19, by Race: 1940-98

BIRTH 3a. Births per 1,000 Unmarried Teens Ages 15 - 17, by Race: 1960-97

BIRTH 3b. Births per 1,000 Unmarried Teens Ages 18 and 19, by Race: 1960-97

BIRTH 4. Percentage of All Children Living in Families with Never-Married Female Head, by Race: 1982-98

Appendix A

A-1. AFDC/TANF Families Receiving Income Assistance

A-3. Average Monthly AFDC/TANF Benefit by Family and Recipient in Constant Dollars

A-4. Characteristics of AFDC Families

A-5. Characteristics of Food Stamp Recipients

Appendix B

B-1. Percentage of Births that are to Unmarried Women within Age Groups by Race
List of Tables

Chapter I

SUM 1. Recipiency and Dependency Rates: 1987-95

SUM 2. Percentage of the Total Population with More than 50 Percent of Income from Various Means-Tested Assistance Programs, by Race and Age: 1995

SUM 3. Percentage of AFDC Recipients with Multiple Years of Receipt and Dependency, by Years and Age: 1982-91

SUM 4. Percentage of Total Population in Poverty with Various Means-Tested Benefits Added to Total Cash Income: Selected Years

SUM 5. Percentage of All Persons in Families with Related Children Under 18 Years of Age in Poverty with Various Means-Tested Benefits Added to Total Cash Income: Selected Years

Chapter II

IND 1a. Percentage of Total Income from Means-Tested Assistance Programs, by Race and Age: Selected Years

IND 1b. Percentage of Recipients with More than 50 Percent of Income from AFDC and Food Stamps Across Two Ten-Year Time Periods, by Years of Dependency, Race, and Age

IND 1c. Percentage of Total Income from Various Sources, by Poverty Status, Race, and Age: 1995

IND 2. Dependency Status in 1995 of Persons Who Received More than 50 Percent of Income from Means-Tested Assistance in 1994, by Race and Age

IND 3. Percentage of AFDC Spells of Individuals in Families with No Labor Force Participants for Individuals Entering Programs During the 1993 SIPP Panel, by Length of Spell, Race, and Age

IND 4a. Percentage of Recipients in Families with Labor Force Participants, by Program, Race, and Age: 1995

IND 4b. Percentage of AFDC Recipients in Families with Labor Force Participants: Selected Years
IND 5. Percentage of AFDC, Food Stamp, and SSI Spells for Individuals Entering Programs During the 1993 SIPP Panel, by Length of Spell, Race, and Age

IND 6. Percentage of AFDC Recipients, by Years of Receipt, Race, and Age

IND 7a. Percentage of Population Receiving Assistance from One, Two, or Three Programs (AFDC, Food Stamps, SSI), by Race and Age: 1995

IND 7b. Percentage of Population Receiving Assistance from One, Two, or Three Programs (AFDC, Food Stamps, SSI): Selected Years

IND 8a. Percentage of First AFDC Spell Beginnings Associated with Specific Events: Selected Periods

IND 8b. Percentage of First AFDC Spell Endings Associated with Specific Events: Selected Periods

IND 9b. Number and Percentage of the Population Receiving Food Stamps, by Age: 1975-98

IND 9c. Number and Percentage of the Population Receiving SSI, by Age: 1975-98

IND 10a. Number and Percentage of Eligible Families Participating in AFDC/TANF: Selected Years

IND 10b. Number and Percentage of Eligible Households Participating in the Food Stamp Program: Selected Years

IND 10c. Percentage of Eligible Adult Units Participating in the SSI Program, by Type: 1993-97

Chapter III

ECON 1a. Percentage of Persons in Poverty, by Age, Race, and Hispanic Origin: Selected Years

ECON 1b. Number and Percentage of Population Below 50, 75, 100, and 125 Percent of Poverty Threshold: Selected Years

ECON 2. Percentage of Poverty Spells for Individuals Entering Poverty During the 1993 SIPP Panel, by Length of Spell, Race, and Age
ECON 3. Percentage of Individuals Living in Poverty, by Years in Poverty, Race, and Age

WORK 1a. Percentage of Individuals in Families with Labor Force Participants, by Race and Age: 1995

WORK 1b. Percentage of Individuals in Families with Labor Force Participants: Selected Years

WORK 2. Percentage of All Persons Ages 18 to 65 with No More than a High School Education Who Were Employed: 1969-99

WORK 4. Percentage of the Population Reporting a Disability, by Race and Age: 1994

WORK 5. Percentage of Adults Who Used Cocaine or Marijuana or Abused Alcohol: Selected Years

WORK 6. Selected Chronic Health Conditions per 1,000 Children Ages 0 – 17: Selected Years

WORK 7. Percentage of Monthly Income Spent on Child Care for Preschoolers by Families with Employed Mothers, by Selected Characteristics: 1993

WORK 8. Percentage of Adults Age 25 and Over, by Level of Educational Attainment: Selected Years

WORK 9. Percentage of Students Enrolled in Grades 10 to 12 in the Previous Year Who Were Not Enrolled and Had Not Graduated in the Survey Year, by Race: Selected Years
BIRTH 1. Percentage of Births to Unmarried Women, by Age Group: 1940-98
BIRTH 2. Percentage of All Births to Unmarried Teens Ages 15 - 19, by Race: 1940-98
BIRTH 3. Births per 1,000 Unmarried Teen Women Within Age Groups, by Race: 1960-97
BIRTH 4. Number and Percentage of All Children Living in Families with Never-Married Female Head, by Race and Hispanic Origin: Selected Years

Appendix A

A-10. AFDC Caseload by State, October 1989 to June 1999 Peak
A-17. Value of Food Stamps Issued by State, Selected Fiscal Years 1975–1998
A-18. Average Number of Food Stamp Recipients by State, Selected Fiscal Years 1977–1998
A-24. Total SSI Payments, Federal SSI Payments and State Supplementary Payments, Calendar Year 1998
A-25. SSI Recipiency Rates by State and Program Type, for 1979 and 1998
Executive Summary

The Welfare Indicators Act of 1994 requires the Department of Health and Human Services to prepare annual reports to Congress on indicators and predictors of welfare dependence. This Annual Report on Welfare Indicators, March 2000 is the third of these annual reports. As directed by the Act, the report focuses on benefits under the Aid to Families with Dependent Children (AFDC) program, now Temporary Assistance to Needy Families (TANF); the Food Stamp Program; and the Supplemental Security Income (SSI) program.

Welfare dependence, like poverty, is a continuum, with variations in degree and in duration. Families may be more or less dependent if larger or smaller shares of their total resources are derived from welfare programs. The amount of time over which families depend on welfare might also be considered in assessing their degree of dependency. Although recognizing the difficulties inherent in defining and measuring dependence, the bipartisan Advisory Board on Welfare Indicators proposed the following definition, as one measure to examine in concert with other key indicators of dependence and deprivation:

A family is dependent on welfare if more than 50 percent of its total income in a one-year period comes from AFDC/TANF, food stamps and/or SSI, and this welfare income is not associated with work activities. Welfare dependence is the proportion of all families who are dependent on welfare.

The proposed definition is difficult to measure because of limitations with existing data collection efforts. Most importantly, the available data do not distinguish between cash benefits where work is required and non-work-related cash benefits. In addition, there are time lags in the availability of national survey data that provide sufficiently detailed information to measure dependence. The majority of data in this year’s annual report, for example, are from 1995 and do not capture the changes that have taken place since enactment of the welfare reform act in August 1996. Nevertheless, this report provides a number of key indicators of welfare recipiency, dependence, and labor force attachment. Selected highlights from the many findings in the report include the following:

- In 1995, the most recent year for which data are available from the Census Bureau’s Survey of Income and Program Participation (SIPP), 5.1 percent of the total population was dependent in the sense of receiving more than half of total income from AFDC, food stamps, and/or SSI (see Indicator 1, Figure IND 1a). This rate is lower than the rates experienced in 1993 and 1994, but not as low as in 1987 and 1990. This dependency rate would be lower if adjusted to exclude welfare income associated with work required to obtain benefits.

- The percentage of the population that received AFDC/TANF in 1998 was lower than in any year since 1970, according to administrative data. Food Stamp Program administrative data indicate that recipiency rates for food stamps also were at 20-year
lows (see Indicators 9a and 9b). The dependency rate, as defined above, can not yet be measured for 1996-1998, because of the aforementioned lags in availability of national survey data. Still, the decline in recipiency rates strongly suggests that dependency is lower now than it was in 1995.

- Long-term dependency is relatively rare. Only 4 percent of those who were recipients in 1982 received more than 50 percent of their income from AFDC and food stamps in nine or more years over a ten-year period. This represents less than 0.5 percent of the total population. Half of the 1982 recipients never received more than 50 percent of their annual income from AFDC and food stamps over the 1982-1991 time period (see Indicator 1, Figure IND 1b).

- Recipients of AFDC, food stamps, and SSI are less apt to have a family member participating in the labor force than are individuals in the general population. In 1995, 46 percent of AFDC recipients, 54 percent of food stamp recipients, and 37 percent of SSI recipients were in families with at least one member in the labor force (see Indicator 4, Figure IND 1a). The comparable figure for the overall population was 83 percent. Full-time participation in the labor force has increased among AFDC families between 1993 and 1995, according to the SIPP data (see Indicator 4, Figure IND 1b). Other data sources indicate that this trend of increased labor force participation has continued through 1998.

Since the causes of welfare receipt and dependence are not clearly known, the report also includes a larger set of risk factors associated with welfare receipt. The risk factors are loosely organized into three categories: economic security measures, measures related to employment and barriers to employment, and measures of nonmarital childbearing. The economic security risk factors include measures of poverty and deprivation that are important not only as predictors of dependence, but also as a supplement to the dependence indicators, ensuring that dependence measures are not assessed in isolation. It is important to examine whether decreases in dependency are accompanied by improvements in family economic status (as, for example, if work activities increase) or by reductions in family material circumstances. The report includes data on the official poverty rate, one of the most common measures of deprivation:

- As the dependency rate fell between 1993 and 1995, the poverty rate for all individuals fell also, from 15.1 percent in 1993 to 13.8 percent in 1995. The poverty rate has continued to fall since then, declining to a ten-year low of 12.7 percent in 1998 (see Economic Security Risk Factor 1, Figure ECON 1a).

Finally, the report has two appendices that provide additional program data on major welfare programs, as well as additional data on non-marital births.
