

SOUTH DAKOTA

Overview			
<p>In South Dakota, adult day care is administered by the South Dakota Department of Social Services Division of Adult Services and Aging (ASA), which provides the service through Older American Act (OAA) funding, the In-Home Services Program, and the State Medicaid Elderly Waiver. The regulations for adult day care apply to providers who have a contractual relationship with the Office of Adult Services and Aging under one of these programs.</p> <p>South Dakota has no other regulatory structure for adult day care.</p>			
Licensure and Certification Requirements

Definitions			
<p>OAA Providers An adult day care center is a facility that provides regular care and supervision to adults away from their homes for part of a 24-hour period.</p> <p>An adult day care unit of service is 1 hour of regularly scheduled activity in a supervised group setting for an eligible person. Service is provided for a minimum of 6 hours a day, 5 days a week.</p> <p>Alternative Program Providers Adult day care provides regular care and protection for adults away from their homes for part of a 24-hour period. This service is defined as regularly scheduled, structured health and social services provided outside an individual's home during the day.</p>			
Parameters for Who Can Be Served			
<p>The funding programs have different eligibility criteria, which indicate the parameters for who can be served.</p> <p>OAA providers may serve persons 60 years of age or older who are not capable of full-time independent living because of physical, social, or mental impairment but do not need 24-hour institutional care.</p> <p>Alternative program providers may serve vulnerable adults with chronic health problems. The provision of services is not permitted if doing so would jeopardized the client's or provider's health or safety.</p> <p>Medicaid elderly waiver providers may serve clients 65 years of age or older who are residents of a hospital, nursing facility, or intermediate care facility for people with mental retardation (ICF/MR) and have an individual care plan requiring the service.</p>
