Notes: * Missouri asked about "regular financial assistance" from family and friends, and included informal child support payments in this category. Illinois included informal payments from a child's non-custodial parent as child support. Illinois and Washington reported that 30% and 22%, respectively, of leavers received cash or non-cash assistance from family or friends, but did not ask specifically about cash assistance from family or friends.

** Mean household income includes those with no income.
